CAMPOSOL RETURNS TO INTERNATIONAL CAPITAL MARKETS WITH A USD 350 MILLION BOND

Camposol issued a USD 350 million bond at a 6% coupon and a seven (7) year maturity, with a demand that exceeded USD 2 billion (+5x). International credit agencies Fitch and Moodys upgraded to BB- and Ba3 the Camposol bonds. The transaction will refinance existing debt and has the objective of increasing maturities and release all collateral, in order to give the company more financial flexibility.

During the global roadshow, the company visited more than 120 investors in seven cities of South America, the United States and Europe.

Jorge Ramírez, Camposol's CEO, pointed out: "This issuance will allow the company to secure its investment plan, which includes becoming a year-round supplier of its products."
